

## Press release

**HÖRMANN DealTicker:** Optimized warehouse processes at Miettex Service Meeß GmbH in Sankt Augustin

Miettex Service Meeß GmbH, a specialist in textile management and rental laundry solutions, has opted for a tailor-made AutoStore® system, which will be set up at the Sankt Augustin site.

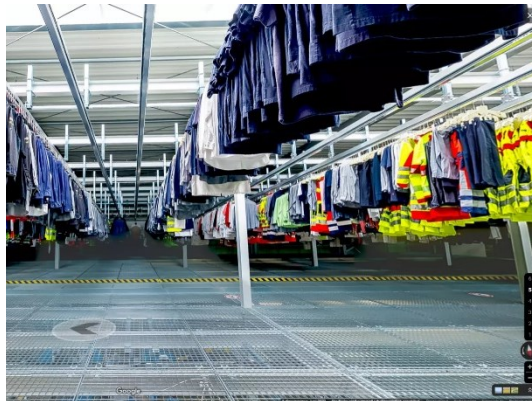

It comprises a grid of 30,765 containers and is operated by 6 "Red Line" robots. Five carousel ports improve throughput with 100 swaps and 67 swaps per hour. The project also includes a service platform and extinguishing generators for safety.

Michael Meeß, Managing Director of Miettex, is enthusiastic: "We had reached our breaking point at our location in Sankt Augustin. Thanks to the modern storage system, we can relieve the workforce and meet the increased demand for our services in a more relaxed manner."

The system is scheduled to go live at the end of 2025.
